

# Uptown Residences

2009-2012

## Introduction

Participating with 25% share in the E/M Construction company "Energon Clima", we undertook as **contractors** the **construction of all E/M installations** of a new building complex by the name: **"Uptown Residences"** owned by the company J&P Development, in Maroussi,

a north suburb of Athens. The complex consisted of 7 independent buildings with different type of residences

, such as flats, marionettes, penthouses, all with common surrounding areas and underground parking and "back of house" facilities
